SUMMARY

Aspiring Software Engineer with hands-on experience in full-stack application development using Java, Spring Boot, React.js, Node.js, MongoDB, and MySQL. Skilled in building RESTful APIs, integrating third-party services, and developing scalable web applications. Passionate about problem-solving, software engineering, and creating impactful technology solutions.

EDUCATION

B.Tech Information Technology, Karpagam College of Engineering
Coimbatore, India

2023 – 2027
CGPA: 7.09 / 10

Relevant Courses: DSA, OOPS, DBMS, Operating Systems

TECHNICAL SKILLS

Programming	C++, Java, JavaScript (ES6+), Python, HTML5, CSS3
Frameworks & Libraries	React.js, Node.js, Express.js, Spring Boot
Databases	MongoDB, MySQL
Cloud	Microsoft Azure (AZ-900 Certified)
Networking	TCP/IP, OSI Model, DNS, Routing, Switching
Cybersecurity	Web Application Security, Vulnerability Assessment
Dev Tools	Git, GitHub, IntelliJ IDEA, VS Code, Postman, Burp Suite, Vercel, Render

KEY TECHNICAL PROJECTS

DEVFOLIO AI – AI-Powered Developer Portfolio & Resume Generator [\[GitHub\]](#) 2026

- Built a full-stack AI platform using **React, Spring Boot, MongoDB, GitHub OAuth, and Google Gemini AI** to automatically generate developer portfolios and resumes from GitHub repositories.
- Implemented AI-powered repository analysis, portfolio generation, resume creation, LinkedIn About generation, and cover letter generation, reducing manual profile-building effort by **70%**.

GITPEN-AI – AI-Powered GitHub Repository Analyzer [\[GitHub\]](#) 2025

- Developed an AI-powered GitHub security scanner using **React, Node.js, MongoDB, Gemini AI, and Groq API**, reducing manual code review effort by **60%**.
- Implemented security scoring, AI-based file analysis, and caching, improving scan speed by **40%**.

HONORS & RECOGNITION

- **Blackbaud VDP Hall of Fame (Bugcrowd)**: Recognized for responsible disclosure of a valid security vulnerability. [\[Link\]](#)
- **Inflectra Responsible Disclosure Hall of Fame**: Recognized for reporting a valid security vulnerability through coordinated disclosure. [\[Link\]](#)

ACHIEVEMENTS & ACTIVITIES

- **Microsoft Certified: Azure Fundamentals (AZ-900)**: Demonstrated knowledge of cloud computing concepts, including IaaS, PaaS, SaaS, Azure services, security, compliance, and pricing models. [\[Credential\]](#)
- **1st Prize – App Development (National Science Day)**: Secured first place at Karpagam College of Engineering for developing an innovative application. [\[Link\]](#)
- **Googleathon Hackathon – SNS College of Engineering**: Represented the team in a competitive hackathon, converting ideas into working technical solutions. [\[Link\]](#)
- **Salesforce Trailhead – Agentblazer Champion & Innovator**: Earned industry-recognized badges through hands-on challenges, strengthening practical problem-solving skills. [\[Profile\]](#)
- **AI Mastery Certification (Udemy)**: Completed advanced training in AI concepts including search algorithms and intelligent strategies. [\[Link\]](#)
